

SBC-Yahoo DSL.

Unfair early termination fee of \$200 when you must move out to an area with no telephone/internet services provided by this company. There is no sense as it is in the 1 year agreement, that the way that the early termination fee won't apply, is when you move out to an area where they provide telephone service, but no DSL service. The worst customer service, Endless telephone tree, Unable to deal with frustated customers, and bad telefone information on its written notices.
